## Dental Hygiene Clinic

Healthy Sandy, Jordan School District, Salt Lake Valley Health Department, Salt Lake Community College (SLCC), and local dentists recently teamed up to provide dental care and teach dental hygiene to Sandy's youth. In February, over 500 students at Sandy Elementary were taught appropriate dental hygiene practices and had their teeth checked by students from the SLCC Dental Hygiene Program. In the following months, local dentists from the Sandy area will be donating their time, following up on pre-screenings, and helping those students without insurance. The collaboration of the agencies involved has helped hundreds of children without insurance receive dental care.
